ABOUT US

BK Royston Book Fairs is an extension of the Children's Book Department of BK Royston Publishing LLC. An opportunity to not only spotlight the latest children's books but to provide an opportunity for schools and non-profits to benefit from an educational fundraiser that support literacy and widespread efforts to have books that model diversity and inclusion initiatives.

OUR BOOKS

K-2

For the young beginning reader to see themselves and the ability to spot the words and sounds that they are learning.

3-5

For the middle reader who has learned to read but wants to read a book that they can clearly relate to.

Twens/Young Adults

For the Tween/Young Adult reader to be inspired to not only to love the characters they read about but to hopefully want to create their own characters one day.
